Honorable George C. Wallace
Governor of Alabama
State Capitol
Montgomery, Alabama 36130

Dear Governor Wallace:

In accordance with the provisions of §27-2-9, Code of Alabama 1975, the Annual Report of the Commissioner of Insurance, covering the operations of all insurance companies authorized to transact business in Alabama in 1984, is transmitted herewith.

Your attention is directed to that portion of the Report entitled "Summary of Operations" which gives in some detail the activities of this Department.

The amounts used in the financial sections were taken from the Annual Statements filed by the various companies, without audit or verification.

Sincerely yours,

Tharpe Forrester
Acting Commissioner

TF:dkh

Summary of Operations

The insurance business in Alabama increased substantially in Alabama during 1984 with Alabamian's paying $3.85 billion in premiums for all types of insurance, an increase of 13.2%. The 1984 growth rate may be compared to 6.3% in 1983, 10.3% in 1982, 4.1% in 1981, 7.6% in 1980 and 9.0% in 1979.

Premiums collected by property and casualty companies increased by 13.6% to $1,476,821,000 from the previous year, and the direct premium and annuity consideration for all life companies increased by 17.0%, the largest over-the-year gain in five years, to $1,040,621,165. Accident and health premiums totaled $1,326,896,290, an increase of only seven-tenths of 1%. Title insurance premiums totaled $9,920,000.

In 1984, the insurance industry paid to the Department $81,790,067 in premium taxes and fees. Of this amount, $63.3 million was deposited to the General Fund, and $18.5 million to the Special Education Trust Fund.

In 1984-85, steps were taken to expand and to upgrade our use of computers. Our agents' licensing program was revised to permit greater computer utilization. Each agent, broker and solicitor was assigned a permanent identification number which eliminated several manual steps in our licensing procedures. Word processors were purchased for each Division, and additional units will be acquired when budget conditions permit.

Statistical data covering insurance premiums and losses are for calendar year 1984 and are compiled from data furnished by the Central Office of the National Association of Insurance Commissioners. Information regarding premium taxes and fees collected by the Department and Departmental disbursements is for the calendar year October 1, 1983 - September 30, 1984.

The Insurance Department consists of six operational divisions: Agents' licensing and testing, life and disability, property and casualty, receivership, legal and financial examination. Also a part of the Insurance Department is the State Fire Marshal's office. The Commissioner of Insurance is an ex-officio member of both the Alabama Securities Commission and the Alabama Arson Prevention Task Force.

Alabama's insurance laws require that all contracts of insurance, other than uncontrolled marine and aviation policies, be approved by the Department prior to their use in this state. A consulting

actuarial firm is employed to review all life and accident and health policy forms. Any variance from required provisions of the Code or Departmental Regulations must be corrected prior to their acceptance.

There is no price regulation over life or accident and health insurance, except for certain Blue Cross - Blue Shield policies and Medicare supplement policies. Most property and liability rates are subject to the Department's approval. Services of consulting actuaries are obtained, when needed, to assist the staff in the evaluation of those rate filings requiring regulatory approval.

Responsibilities of the Legal Division, other than litigation, involved reviewing applications for the sale of securities in Alabama, drafting the Department's legislative program, and assuring proper interpretation of the Insurance Code. During 1985, the Legal Division initiated numerous proceedings against insurance agents and insurance companies. Many cases were settled without the institution of formal charges. In addition to administrative actions, the Legal Division represented the Department in at least 275 civil cases in the State and Federal courts of Alabama and approximately twenty (20) other states on matters ranging from insurer receiverships to enforcement of fire codes in county jails and other public facilities.

On December 20, 1984, two Alabama property and casualty companies, Early American Insurance Company and Standard Fire Insurance Company of Alabama were placed under Supervision Orders. Subsequently, it was determined that rehabilitation efforts would not be successful, and a final Order was granted on February 1, 1985, by the Montgomery Circuit Court to liquidate Early American Insurance Company. A similar order to liquidate Standard Fire of Alabama was issued March 5, 1985. The failure of these two domestic insurers placed an awesome burden on the staff of the Department, especially the Receivership and Legal Divisions. The administrative problem was compounded by Early American's offices being located in Fort Worth, Texas.

The receivership activities of Empire Life Insurance Company of America and Life Insurance Company of America continued during the year. These companies were placed in receivership in 1972 and 1978, respectively.

In 1984, the Agents' Licensing Division scheduled 17,240 agents' licensing examinations for 9,659 applicants. For the previous year, the corresponding figures were 15,473 and 8,243.

During 1984, Insurance Department examiners conducted 38 triennial on-premises financial examinations of domestic insurance companies. Five of these examinations had commenced during the latter part of 1983, and eight were in progress at year-end 1984.

In addition, one special examination was conducted. Alabama examiners also participated in three foreign company examinations. The examinations ranged in duration from less than one week to several months, depending upon the size and complexity of the company being examined.

Each year, numerous insurers from other states make application for admission to Alabama. In 1984, our Admissions Committee reviewed 67 admission applications and approved 35 companies for licensing. During the most recent four-year period (1981-1984), 309 admission applications were reviewed and 192 companies licensed.

An abbreviated report pertaining to the State Fire Marshal's office is attached. Statistical data covering the activities of that office may be obtained upon written request.

Re: Annual Report
State Fire Marshal's Office
for the year of 1984

Dear Mr. Forrester:

In accordance with Section 36-19-26, Code of Alabama 1975, the annual report of the State Fire Marshal is respectfully submitted for your information and approval.

In 1984, there were 98 fire fatalities in the state. This is a decrease of 43 fatalities over 1983, and the lowest fire fatality figure in 30 years.

Most fire fatalities occur in one (1) and two (2) family wood frame dwellings. A large percentage of the fire fatalities are from low income families. Even though we assign priorities to the investigation of fires involving fatalities, causes of 41 percent of the above fire fatalities were undetermined or not reported to this office for investigation. Two (2) cases were determined to be murder/arson which was two (2) percent of the fatalities. This reflects a necessity for all fires involving fatalities to be immediately reported to this office for investigation, unless there is a trained fire investigator available to conduct the investigation.

The State Department of Forensic Science has continued to cooperate with this division in the investigation of fires where fatalities are involved. In some instances, these technical individuals take blood samples and process these samples in their laboratories. They also conduct post-mortem examinations to determine contributing factors to the cause of the death.

Legislation should be sought to require the taking of blood samples from all fire fatalities and post-mortem examinations should be conducted at the option of the coroner and forensic science personnel on all fire victims, especially where no witnesses are available to substantiate the fact that the victim was alive at the time of the fire. A post-mortem examination should also be required when the identity of the victim can not be positively determined by external examination.

This office has endeavored to cooperate with fire officials, sheriff's department, police departments, insurance adjusters and all other state agencies throughout the state, in conducting investigations and inspections and responding to other duties and responsibilities as mandated by state law.

In 1984, personnel from this division, conducted 737 fire investigations. Action was initiated against 145 defendants for arson and other defenses, which were pending at the beginning of 1984. During 1984, action was initiated against 92 defendants for arson and other defenses. Disposition of these cases are set out in the statistical portion of this report.

There were 629 general inspections in 1984. In addition, there were 138 inspections of gasoline service stations and bulk storage facilities.

There were 40 reinspections of county jails and one (1) original inspection and 25 reinspections of city jails, conducted during the year.

There were 1,127 inspections conducted of fireworks sales locations. Permits for 1,218 fireworks sales locations and 68 public displays were issued. A total of $47,518.00 was collected for these permits. This reflects a $19,304.00 decrease from 1983.

Permits were issued to 88 sprinkler contractors in 1984, for a total of $8,800.00. This reflects a $1,100.00 increase over 1983.

Plan reviews were conducted on nine (9) sets of plans for jail facilities. Eight (8) were approved, recommendations were made on one (1) set of plans.

Forty-nine (49) sets of additional sets were reviewed, 30 of these plans were approved, recommendations were made on 19 sets. The high percent of recommendations necessary for plans reviewed, and the fact that we continue to locate buildings being renovated and constructed as public assemblies without required architectural plans, indicates a problem area of code enforcement.

It is recommended that legislation be sought to require plans and specifications for renovation and construction of public assembly, high-rise, day care centers, restaurants, lounges, shopping centers, and other facilities, required to meet state fire codes and regulations, be submitted to the State Fire Marshal's Office for review. Further, that a fee schedule be authorized for the review of the above plans and specifications by this office.

The Manufactured Housing Section conducted 89 on-site inspections and 44 manufactured company inspections for a total of 133. This section conducted 53 plan option reviews, including 21 quality control manual reviews, for a total activities of 207.

This section issued 350 insignias. Plan review and inspection fees totaled $23,825.85. The mobile unit, handled by the manufactured housing section, issued 311 licenses to mobile home manufacturers and dealers for a total of $33,100.00. Photocopying and miscellaneous receipts totaled $1,482.50.

The Fire Marshal's Office received from the United States Department of Housing and Urban Development, for acting as a State Administrative Agency, for mobile home complaints, $140,580.00. Total receipts for the manufactured housing section, including HUD was $196,688.35.

The total receipts for the State Fire Marshal's Division was $253,006.35, for the year 1984.

On November 5, 1984, Charles E. Sanders resigned his position as deputy state fire marshal. On November 5, 1984, Kenneth W. Flowers was appointed to fill this position.

I respectfully call your attention to the fact that the workload of this division has steadily increased to the point that in almost every territory, the deputy state fire marshal is completely over-burdened with assignments. It is especially hard for the deputies to conduct investigations due to the number of requests and the size of their territories. This problem is magnified two (2) times each year by the large number of fireworks inspections that the deputies are required to conduct. During these two (2) extremely heavy times, being two (2) weeks before the fourth of July and Christmas for another two (2) weeks, the deputies are not able to respond to any investigative requests, other than emergencies.

The amendment to the fireworks law, which has been introduced in the legislature for the past three (3) years, is needed to alleviate a portion of this increased workload. The existing law requires inspections of every fireworks sales location prior to issuing a permit. This increases the expense of implementing this law, as well as completely monopolizing deputy state fire marshal's time during these two (2) periods.

This division is understaffed, and it is my recommendation that two (2) additional deputy state fire marshal's be employed as soon as possible, so that some of the larger populated areas of the state and areas of extremely heavy workload can be adequately covered.

It is further recommended that one (1) additional secretary be employed for the purpose of typing investigation reports, checking reports that are sent in by the deputies, correcting spelling and sentence structure of these

reports. We should circulate a more professional report when copies of these reports are requested by district attorney's, insurance companies, attorneys or other interested parties.

Sincerely,

Roy L. Thornell

Roy L. Thornell
State Fire Marshal
